6-12

One lantern. One friendship,
One unforgettable adventure.

Discover the Lantern

One evening, as Ayan wandered near the ancient oak tree, he noticed a soft golden glow.

Hidden among the roots was a beautiful lantern, shining like a piece of the moon.

As Ayan reached out, the lantern sparkled, as if it had been waiting just for him.

Sometimes, the most magical things
are found when we least expect them.

Journey — Through — the Sky

Ayan and Luna walked across the glowing bridge of stardust, gently leading little stars back to their homes.

Together, they kept the night sky shining bright and beautiful.

Every star has a home,
and every light has a purpose.
Kind hearts make the sky shine.

The Great Star Parade

Ayan lifted the Moon Lantern high,
and the stars came out to play.
They twinkled and danced,
forming amazing shapes
across the sky.

It was the greatest
parade of lights
Ayan had ever seen!

When we shine together
with kindness,
the world becomes magical.

The Brightest Constellation

Ayan looked up in amazement. The Moon Lanterns formed a beautiful constellation—shining brighter than all the stars.

Luna smiled. “When kindness lights the way, even the smallest light can shine the brightest.”

Kindness connects us all.
Together, we can light up the world.
